Description of hazardous waste: Spent Potliner

EPA hazardous waste number: K088

DOT hazard class: 4.3

Transporter & US EPA ID number: Clean Harbors Canada Inc #MAD 039322250

Total amount of waste shipped: 1943.75 tons

Total number of shipments: 91

Ormet continues to investigate and implement changes in potliner construction to extend the life of the liner and thereby reducing the amount of waste generated. Potliner life has been extended between 1.0 and 1.5 percent over the years 2000 to 2010. There are no feasible methods used in the aluminum industry to reduce the toxicity of potliner. In partnership with the USEPA the aluminum industry continues investigating the feasibility of using potliner as a raw material in the production of cement.
